The Birthstone Quilt Series

Tues, May 21 at 10:30 – 3:00

Class Fee: \$12.00 for 1st class, then \$10 for next classes, or Prepay Fabrics and supplies with 3 or more classes for \$30, or choose 12 months financing with 0% Interest

May Birthstone:
Emerald

Create your own sparkling gem using the same single-foundation piecing techniques I use to create my giant gem portraits. This isn't regular paper piecing! Reusable iron-on templates adhere to the front of the fabric and can be easily removed after piecing.

This pattern includes **iron-on templates**, a **full-size paper copy**, and **instructions** for making your own brilliant gem. **YOU CAN DO THIS!**

Fabric Requirements

While I use Painter's Palette solids from Paintbrush Studio, any quality line of solids can be used for The Birthstone Series.

COLOR	SIZE	Paintbrush Studio Fabric
Dk Forest Green	18" x 12"	Woodsmen
Forest Green	18" x 12"	Forest
Leaf Green	18" x 9"	Android
Emerald Green	12" x 9"	Paradise
Bright Green	12" x 12"	Jolly
Lt Green	12" x 6"	Agave
Pale Green	12" x 6"	Limelight
White	12" x 6"	White

Level: Confident Beginner

Block size: 17" x 17".

Additional fabric requirements and instructions to create an 18" x 18" pillow, a 4-block wall-hanging, or a 12-block quilt (63" x 84") like the quilt in the small photo on the front cover are listed inside.

Join Carol to create a birthstone of your choice in fabric! What an exciting salute to yourself or someone you love! Everyone has a birthstone and you can learn to make one for a nice pillow (blocks are 17" x 17"), or choose several for a great table runner or bed runner, or choose them all to make the whole quilt. (Finished size is 63" x 84" or add more borders for a larger quilt)!

Not only do these look realistic with the depth and glisten like a real gemstone, but these are made with a Brand New Paper Piecing Technique that uses freezer paper with the fabrics right side up and you never rip out the paper in the seams. In fact, you can re-use the full size template and freezer paper pieces over and over again that are provided in the pattern! Carol LOVES this great technique and you may never do paper piecing the same again! If you are brand new to paper piecing, then this is a great method for you to learn!
